AMPP Cathodic Protection Technician (CP2) Preparation

التحضير لشهادة فني الحماية الكاثودية AMPP (CP2)

Duration	Format	Language	Level
5 days (35 h) or 10 days (70 h)	**Classroom / online / in-house**	**English or Arabic**	**Certification preparation**

Overview

AMPP Cathodic Protection Technician (CP2) Preparation prepares candidates for the AMPP Cathodic Protection Technician (CP2) credential. Prepare for CP Technician: CP theory, survey techniques, rectifier checks and data interpretation. Each day combines a focused review of one domain with realistic practice questions and worked answers, and the course ends with a full timed mock exam and a personal study plan. The credential is awarded by AMPP; exam registration and fees are arranged directly with AMPP. Join a public session in one of 20 cities or live online, in English or Arabic, or run the course in-house for your team.

What you will be able to do

- Answer exam questions confidently on Corrosion electrochemistry and CP theory.
- Answer exam questions confidently on Galvanic and impressed current systems.
- Answer exam questions confidently on Field measurements and survey techniques.
- Answer exam questions confidently on Rectifiers, test stations and interference.
- Use proven exam technique and follow a realistic study plan to exam day.

Who should attend

Professionals preparing for a certification exam and managers planning team certification. Candidates should check the current eligibility requirements of AMPP before enrolling.

Garnet is an independent training provider. The credential is awarded only by AMPP; exam registration and fees are paid directly to AMPP.
