Professional Certification Preparation

CCSP Cloud Security Professional Exam Preparation

التحضير لاختبار CCSP محترف أمن الحوسبة السحابية

Duration	Format	Language	Level
5 days (35 h) or 10 days (70 h)	**Classroom / online / in-house**	**English or Arabic**	**Certification preparation**

Overview

CCSP Cloud Security Professional Exam Preparation prepares candidates for the CCSP Cloud Security Professional credential. Prepare for the CCSP exam across cloud architecture, data, platform and application security, operations and compliance. Each day combines a focused review of one domain with realistic practice questions and worked answers, and the course ends with a full timed mock exam and a personal study plan. The credential is awarded by ISC2; exam registration and fees are arranged directly with ISC2. Join a public session in one of 20 cities or live online, in English or Arabic, or run the course in-house for your team.

What you will be able to do

- Answer exam questions confidently on Cloud concepts, architecture and design.
- Answer exam questions confidently on Cloud data security.
- Answer exam questions confidently on Cloud platform and infrastructure security.
- Answer exam questions confidently on Cloud application security and operations.
- Use proven exam technique and follow a realistic study plan to exam day.

Who should attend

Professionals preparing for a certification exam and managers planning team certification. Candidates should check the current eligibility requirements of ISC2 before enrolling.

Garnet is an independent training provider. The credential is awarded only by ISC2; exam registration and fees are paid directly to ISC2.
