Overview

Disease Surveillance Systems turns established good practice into step-by-step methods that participants rehearse in exercises and then apply at work. Protect and improve population health through prevention, surveillance and health programs. You can join a public session in one of 20 cities or live online, in English or Arabic, or bring the course in-house with examples from your own operations.

What you will be able to do

- Apply the methods and standards of Disease Surveillance Systems to real tasks.
- Avoid the mistakes that most often cause rework or failure.
- Share good practice with your team.
- Use the right tools, checks and calculations step by step.
- Diagnose common problems and identify root causes.

Who should attend

Public health officers, health program managers, inspectors and community health staff. Practitioners with one to five years of experience benefit most.
